

Beautifying Seal—for Hard and Soft Floors

Have you been looking for a sealer that does what you want it to do?

Good on hard floors like terrazzo, ceramic tile, quarry tile, marble and concrete. Excellent on soft floors such as linoleum, rubber, asphalt and vinyl. Look no further, ICL has made available a sealer called Seal-X.

Seal-X has these capabilities; Long-wearing and slip-proof, can take hard beating of traffic and still maintain its scuff and mar resistance.

Seal-X is clear in color so it will not discolor floors, in fact, it gives new life to old lifeless floors. When Seal-X is applied to the floor, it spreads evenly filling in the pores, making the surface smooth and ready for waxing. With mop or applicator, Seal-X goes down easily and will dry in 20 or 30 minutes—ready for the second coat.

There are many reasons why Seal-X is the truly beautifying seal. It saves you money on sealer and finish, restores old floors, applies easily and dries fast.
